

## Art and Design

We will be making marbled pictures by blowing bubbles in paint. We will study the work of the artist Carl Warner and create our own food landscapes. We will create ice cube paintings using frozen blocks of paint and use clay to create patterns. We will create mixed media pictures and collages and recreate parts of famous paintings.

## Computing

We will be creating 'dough ball' animations. We will be taking digital pictures of our artwork for display and sending a class email to an art gallery.

## Science

We will be investigating the changes to everyday materials when mixed with water. We will test a variety of soap products to see which make the best bubbles. We will observe how a range of foods melt and make our own ice cream. We will make bread dough and investigate its properties and explore mixtures that do not mix.

## Year 2 Muck, Mess and Mixtures

## Wow Day- Artist Workshop

## Design & Technology

We will be focussing on food technology this term. We will sort a range of foods to show where they have come from and explore healthy and unhealthy foods. We will be following recipes which involve melting ingredients and make rainbow jelly. We will design and set up an outdoor messy kitchen.

## Geography

We will be looking at different foods from around the world and locating them on a map.

## R.E

How special is the relationship Jews have with God?

We will be learning how celebrating Passover and keeping Kashrut (food laws) help Jews show God they value their special relationship with him.
